### Notice: Revised Watershed and Wetlands Map

Dear Director Traub:

On behalf of the Lac du Flambeau Band of Lake Superior Chippewa Indians, I enclose with this letter the Band's Revised Watershed and Wetlands Map to be included in the application for treatment as a state under Sections 303 and 401 of the Clean Water Act. The original Watersheds and Wetlands Map was included in Attachment A.3 to the Tribe's application, which was submitted to EPA on October 12, 2005.

During a subsequent review of the treatment as a state application, an error was found on the Watershed and Wetlands Map pertaining to the direction of the flow arrows for the Trout River, located in the north east corner of the Reservation. The revised map corrects the direction of the arrows on Trout River. In all other respects, the revised map is the same as the original map that was contained with the October 12<sup>th</sup> submission. The revised map should be included in the application before it is determined complete.

Thank you for your assistance during this process. If you have any questions, please contact myself or Gretchen Watkins, our Water Quality Specialist, at (715) 588-3303.

Sincerely,

Larry Wawronowicz  
Deputy Administrator Natural Resources

Enclosure
